

General Instructions

- (i) This question paper contains 150 questions. All questions are compulsory.
- (ii) It comprises 150 single-correct multiple-choice questions.
- (iii) Attempt every question; detailed solutions are provided in the companion solutions booklet.

1. In a Retail outlet the average revenue was Rs. 10,000 per day over a 30 day period. During this period the average daily revenue on weekends (total 8 days) was Rs. 20,000 per day. What was the average daily revenue on weekdays?

- (A) 6364
- (B) 5250
- (C) 6570
- (D) 8060

• • •

2. Two different prime numbers X and Y , both are greater than 2, then which of the following must be true?

- (A) $X - Y = 23$
- (B) $X + Y \neq 87$
- (C) Both 1 and 2
- (D) None of the above

• • •

3. It takes 6 hours for pump A, used alone, to fill a tank of water. Pump B used alone takes 8 hours to fill the same tank. A, B and another pump C all together fill the tank in 2 hours. How long would pump C take, used alone, to fill the tank?

- (A) 4.8
- (B) 6
- (C) 5.6
- (D) 3

• • •

4. A swimming pool can be filled by pipe A in 3 hours and by pipe B in 6 hours, each pump working on its own. At 9 am, pump A is started. At what time will the swimming pool be filled if pump B is started at 10 am?

- (A) 11:20 a.m.
- (B) 11:05 a.m.
- (C) 11:10 a.m.
- (D) 10:50 a.m.

• • •

5. The sum of prime numbers that are greater than 60, but less than 70 is:

- (A) 128
- (B) 191
- (C) 197
- (D) 260

• • •

6. Find out the appropriate next number in the series from the options below: 0, 2, 6, 12, 20, 30, 42, ?

- (A) 56
- (B) 62
- (C) 49
- (D) 5

• • •

7. A bakery opened with its daily supply of 40 dozen rolls. Half of the rolls were sold by noon, and 60% of the remaining rolls were sold between noon and closing time. How many dozen rolls were left unsold?

- (A) 6
- (B) 8
- (C) 10
- (D) 12

• • •

8. Stuart, Jack and Leo are colleagues working in a plant. Stuart and Jack can do a work in 10 days, Jack and Leo can do the same work in 15 days while Stuart and Leo can do it in 12 days. All of them started the work together. After two days, Leo was shifted to some other work. How many days will Stuart and Jack take to finish the rest of the work?

- (A) 9
- (B) 12
- (C) 8
- (D) 7.5

• • •

9. The missing numbers in the following series would be:
 $1 : 1, 8 : 4, 9 : 27, 64 : 16, 25 : 125, ? : ?, 49 : 343$

- (A) $36 : 316$
- (B) $216 : 36$
- (C) $316 : 16$
- (D) $32 : 316$

• • •

10. The difference between the value of a number increased by 25% and the value of the original number decreased by 30% is 22. What is the original number?

- (A) 70
- (B) 65
- (C) 40
- (D) 90

• • •

11. Running at the same constant rate, 6 identical machines can produce a total of 180 bottles per hour. How many bottles could 15 such machines produce in 30 minutes?

- (A) 225
- (B) 300
- (C) 250
- (D) 350

• • •

12. A number whose fifth part increased by 4 is equal to its fourth part diminished by 10, is:

- (A) 240
- (B) 260
- (C) 270
- (D) 280

• • •

13. Which one of the following numbers will completely divide $4^{61} + 4^{62} + 4^{63} + 4^{64}$?

- (A) 3
- (B) 10
- (C) 11
- (D) 13

• • •

14. Is 'b' positive?

- (I) $a + b$ is positive.
- (II) $a - b$ is positive.

- (A) Statement I alone is sufficient to answer the question.
- (B) Statement II alone is sufficient to answer the question.
- (C) Both statement I and II together are necessary to answer the question.
- (D) Both statements I and II together are not sufficient to answer the question.

• • •

15. In a general body election, 3 candidates, p, q and r were contesting for a membership of the board. How many votes did each receive?

(I) p received 17 votes more than q and 103 votes more than r.

(II) Total votes cast were 1703.

(A) Statement I alone is sufficient to answer the question.

(B) Statement II alone is sufficient to answer the question.

(C) Both statement I and II together are necessary to answer the question.

(D) Both statements I and II together are not sufficient to answer the question.

• • •

16. If C_1 and C_2 are the circumferences of the outer and inner circles respectively, what is $C_1 : C_2$?

(I) The two circles are concentric.

(II) The area of the ring is $\frac{2}{3}$ the area of greater circle.

(A) Statement I alone is sufficient to answer the question.

(B) Statement II alone is sufficient to answer the question.

(C) Both statement I and II together are necessary to answer the question.

(D) Both statements I and II together are not sufficient to answer the question.

• • •

17. What is the middle number of 7 consecutive whole numbers?

(I) Product of the numbers is 702800.

(II) Sum of the numbers is 105.

- (A) Statement I alone is sufficient to answer the question.
- (B) Statement II alone is sufficient to answer the question.
- (C) Both statement I and II together are necessary to answer the question.
- (D) Both statements I and II together are not sufficient to answer the question.

• • •

18. Total marks obtained by P, Q, R and S in Mathematics is 360. How many marks did P secure in Mathematics?

- (I) P secured one-third of the total marks of Q, R and S.
- (II) Average marks obtained by Q and R are 20 more than that secured by S.

- (A) Statement I alone is sufficient to answer the question.
- (B) Statement II alone is sufficient to answer the question.
- (C) Both statement I and II together are necessary to answer the question.
- (D) Both statements I and II together are not sufficient to answer the question.

• • •

19. How many ice cubes can be accommodated in a container?

- (I) The length and breadth of the container are 20 cm and 15 cm respectively.
- (II) The edge of the ice cube is 2 cm.

- (A) Statement I alone is sufficient to answer the question.
- (B) Statement II alone is sufficient to answer the question.
- (C) Both statement I and II together are necessary to answer the question.
- (D) Both statements I and II together are not sufficient to answer the question.

• • •

20. Ram got Rs 1500 as dividend from a company. What is the rate of interest given by the company?

- (I) The dividend paid last year was 10%.
- (II) Ram has 350 shares of Rs 10 denomination.

- (A) Statement I alone is sufficient to answer the question.
- (B) Statement II alone is sufficient to answer the question.
- (C) Both statement I and II together are necessary to answer the question.
- (D) Both statements I and II together are not sufficient to answer the question.

• • •

21. The bar chart below shows the sales (in Rs crores) of the top pain killer brands in India during 2005 and 2006.

Read the chart and answer the questions.

What is the difference between the sales of Voveran in 2006 and those of Calpol in 2005 (in Rs lacs)?

- (A) 1000
- (B) 50
- (C) 100
- (D) 500

...

22. The bar chart below shows the sales (in Rs crores) of the top pain killer brands in India during 2005 and 2006.

Read the chart and answer the questions.

Percentage of increase in sales from 2005 to 2006 is the highest for which brand of a pain killer?

- (A) Voveran
- (B) Volini
- (C) Dolonex
- (D) Sumo

• • •

23. The bar chart below shows the sales (in Rs crores) of the top pain killer brands in India during 2005 and 2006.

India and answer the questions.

Percentage increase in sales from 2005 to 2006 is the lowest for which brand of a pain killer?

- (A) Voveran
- (B) Volini
- (C) Moov
- (D) Nise

• • •

24. The bar chart below shows the sales (in Rs crores) of the top pain killer brands in India during 2005 and 2006.

Read the chart and answer the questions.

What is the approximate percentage of increase in the sales of Voveran from 2005 to 2006?

- (A) 35%
- (B) 40%
- (C) 45%
- (D) 50%

...

25. Which of the designs best completes the following sequence?

Direction:
The designs consist of numbers.
Answer the question by selecting the design that best completes the sequence.

(A)

(1)

(B)

2)

(C)

(3)

(D)

4J

...

26. What is the number that is one half of one quarter of one tenth of 400?

- (A) 2
- (B) 5
- (C) 8
- (D) 10

...

27. Consider a square ABCD with midpoints E, F, G and H of sides AB, BC, CD and DA. Let L denote the line passing through F and H. Consider points P and Q on the line L inside the square such that the angles APD and BQC are both equal 120 degrees. What is the ratio of area ABCQPD (i.e. area of hexagon A-B-C-Q-P-D) to the remaining area of ABCD?

- (A) $4 + \frac{\sqrt{2}}{3}$
- (B) $2\sqrt{3} - 1$
- (C) $2 + \sqrt{3}$
- (D) $\frac{10 - 3\sqrt{3}}{9}$

• • •

28. The Price of Darjeeling Tea (in rupees per kilogram) is $100 + 0.1n$, on the n th day of a non-leap year ($n = 1, 2, 3, \dots, 100$) and then remains constant. On the other hand the price of Ooty tea (in rupees per kilogram) is $85 + 0.15n$, on the n th day ($n = 1, 2, \dots, 365$). On which date of that year will the prices of these two varieties of the tea be equal?

- (A) 27th October
- (B) 16th June
- (C) 15th June
- (D) 28th October

• • •

29. Triangle ABC and Triangle PQR are congruent

- (I) Area of Triangle ABC and Triangle PQR are same
- (II) Triangle ABC and Triangle PQR are right angle Triangles

- (A) Answer (1) if data in Statement I alone is sufficient to answer the question but the data in Statement II alone is not sufficient to answer the question.
- (B) Answer (2) if data in Statement II alone is sufficient to answer the question but the data in Statement I alone is not sufficient to answer the question.
- (C) Answer (3) if data in Statement I and II together are necessary to answer the question.
- (D) Answer (4) if data in Statement I and II together are not sufficient to answer the question.

• • •

30. Salary of A and B is in ratio 3:4 and expenditure is in ratio 4:5. What is the ratio of their saving?

- (I) B's saving is 25% of his salary.
- (II) B's salary is Rs 2500.

- (A) Answer (1) if data in Statement I alone is sufficient to answer the question but the data in Statement II alone is not sufficient to answer the question.
- (B) Answer (2) if data in Statement II alone is sufficient to answer the question but the data in Statement I alone is not sufficient to answer the question.
- (C) Answer (3) if data in Statement I and II together are necessary to answer the question.
- (D) Answer (4) if data in Statement I and II together are not sufficient to answer the question.

• • •

31. What is the average height of the class?

(I) Average height of the class decreases by 1 cm if we exclude the tallest person of the class whose height is 56 cm.

(II) Average height of the class increases by 1 cm if we exclude the shortest person of the class whose height is 42 cm.

(A) Answer (1) if data in Statement I alone is sufficient to answer the question but the data in Statement II alone is not sufficient to answer the question.

(B) Answer (2) if data in Statement II alone is sufficient to answer the question but the data in Statement I alone is not sufficient to answer the question.

(C) Answer (3) if data in Statement I and II together are necessary to answer the question.

(D) Answer (4) if data in Statement I and II together are not sufficient to answer the question.

• • •

32. Ram is taller than Shyam and Jay is shorter than Vikram. Who is the shortest among them?

(I) Ram is the tallest.

(II) Shyam is taller than Vikram.

- (A) Answer (1) if data in Statement I alone is sufficient to answer the question but the data in Statement II alone is not sufficient to answer the question.
- (B) Answer (2) if data in Statement II alone is sufficient to answer the question but the data in Statement I alone is not sufficient to answer the question.
- (C) Answer (3) if data in Statement I and II together are necessary to answer the question.
- (D) Answer (4) if data in Statement I and II together are not sufficient to answer the question.

• • •

33. In September 2009, the sales of a product were $\frac{2}{3}$ rd of that in July 2009. In November 2009, the sales of the product were higher by 5% as compared to September 2009. How much is the percentage of increase in sales in November 2009 with respect to the base figure in July 2009?

- (A) +40%
- (B) -20%
- (C) -30%
- (D) +25%

• • •

34. For what range of values of x , will the inequality $15x - \frac{2}{x} > 1$ hold?

- (A) $x > 0.4$
- (B) $x < \frac{1}{3}$
- (C) $-\frac{1}{3} < x < 0.4, x > \frac{15}{2}$
- (D) $-\frac{1}{3} < x < 0, x > \frac{2}{5}$

• • •

35. How many litres of a 30% alcohol solution should be added to 40 litres of a 60% alcohol solution to prepare a 50% solution?

- (A) 30
- (B) 20
- (C) 24
- (D) 32

• • •

36. 66 cubic centimetres of silver is drawn into a wire of 1 mm diameter. The length of the wire in metres will be:

- (A) 84
- (B) 90
- (C) 168
- (D) 336

• • •

37. A train 108 m long moving at a speed of 50 km/hr crosses a train 112 m long coming from opposite direction in 6 seconds. The speed of the second train is,

- (A) 48 km/hr
- (B) 54 km/hr
- (C) 66 km/hr
- (D) 82 km/hr

• • •

38. R is a positive number. It is multiplied by 8 and then squared. The square is now divided by 4 and the square root is taken. The result of the square root is Q. What is the value of Q?

- (A) $3R$
- (B) $4R$
- (C) $7R$
- (D) $9R$

• • •

39. If the length, breadth and height of the room are in ratio 3:2:1. The breadth and height of the room are halved and length of the room is doubled. Then area of the four walls of the room will,

- (A) decrease by 13.64%
- (B) decrease by 15%
- (C) decrease by 18.75%
- (D) decrease by 30%

• • •

40. A survey was conducted of 100 people whether they have read recent issues of 'Golmal', a monthly magazine. Summarized information is presented below:

Only September: 18

September but not August: 23

September and July: 8

September: 28

July: 48

July and August: 10

None of the three months: 24

What is the number of surveyed people who have read exactly for two consecutive months?

- (A) 7
- (B) 9
- (C) 12
- (D) 14

• • •

41. Four children A, B, C & D are having some chocolates each. A gives B as many as he already has, he gives C twice of what C already has and he gives D thrice of what D already has. Now, D gives $(1/8)$ th of his own chocolates to B. Then A gives 10% chocolates he now owns to C and 20% to B. Finally, all of them have 35 chocolates each. What is the original number of chocolates each had in the beginning?

- (A) A - 110, B - 10, C - 10, D - 10
- (B) A - 90, B - 20, C - 20, D - 10
- (C) A - 70, B - 25, C - 25, D - 20
- (D) A - 125, B - 5, C - 5, D - 5

• • •

42. There are two similar figures below with some numbers. The left one is complete whereas one number is missing in the right one. Find a suitable number to fill in place of the question mark.

- (A) 280
- (B) 303
- (C) 362
- (D) 382

• • •

43. Complete the following series by replacing the ?: (TBLD, VEPI, XHTN, ?)

- (A) ZJVP
- (B) ZVJP
- (C) ZKXS
- (D) ZKXP

• • •

44. In a cricket team, three batsmen Ricky, Sachin and Brian are the top three run-scorers in any order. Each of them gives two replies to any question, one of which is true and the other is false, again, in any order. When asked about who the top scorer was, following were the replies they gave:

Sachin: I got the top score. Ricky was second.

Brian: I got the top score. Sachin was second.

Ricky: I got the top score. Sachin was third.

Which of the following is the correct order of batsmen who got the top score, second best and third best score respectively?

- (A) Brian, Ricky, Sachin
- (B) Brian, Sachin, Ricky
- (C) Ricky, Sachin, Brian
- (D) Sachin, Brian, Ricky

• • •

45. 60 employees in an office were asked about their preference for tea and coffee. It was observed that for every 3 people who prefer tea, there are 2 who prefer coffee. For every 6 people who prefer tea, there are 2 who drink both of tea and coffee. The number of people who drink both is the same as those who drink neither. How many people drink both tea and coffee?

- (A) 10
- (B) 12
- (C) 14
- (D) 16

• • •

46. A clock strikes once at 1 o'clock, twice at 2 o'clock and so on. If it takes 6 seconds to strike at 3 o'clock, how much time will it take to strike at 9 o'clock?

- (A) 24 seconds
- (B) 18 seconds
- (C) 20 seconds
- (D) None of these

• • •

47. E-1, E-2 and E-3 are three engineering students writing their assignments at night. Each of them starts at a different time and completes at a different time. The digit in their name and the order of their starting and completing the assignment is certainly not the same. The last student to start is the first to complete the assignment. Who is the first student to start writing the assignment?

- (A) E-1
- (B) E-2
- (C) E-3
- (D) Cannot be decided

• • •

48. E-1, E-2 and E-3 are three engineering students writing their assignments at night. Each of them starts at a different time and completes at a different time. The digit in their name and the order of their starting and completing the assignment is certainly not the same. The last student to start is the first to complete the assignment. Who is the last student to complete the assignment?

- (A) E-1
- (B) E-2
- (C) E-3
- (D) Cannot be decided

• • •

49. A, B and C are three students from Don School and P, Q and R are three students from Elite School. Q is brighter than R but duller than the Don School student who is brighter than A. The same Don School student is duller than P but is brighter than C. Who is brightest amongst all?

- (A) B
- (B) P
- (C) R
- (D) Cannot be decided

• • •

50. A, B and C are three students from Don School and P, Q and R are three students from Elite School. Q is brighter than R but duller than the Don School student who is brighter than A. The same Don School student is duller than P but is brighter than C.

Who is the dumbest amongst the three students from Elite School?

- (A) P
- (B) Q
- (C) R
- (D) Cannot be decided

• • •

51. When Rafael entered the class, there were already 10 students in the class. 5 students entered the class between Roger and Rafael. Total 10 students entered after Roger. Exactly how many students are in the class finally?

- (A) 15
- (B) 25
- (C) 27
- (D) Cannot be decided

• • •

52. Arijit, Biplab, Chintan, Debashish, Elangovan, Frederick, Gautam and Himadri are sitting around a circular table. Some information about the order in which they are sitting is available as follows:

1. Debashish is sitting opposite to Himadri and to the immediate right of Gautam.
2. Elangovan is sitting to the immediate right of Biplab.
3. Arijit is sitting opposite Chintan who is not immediately next to Frederick on either side.

Who is sitting to the immediate right of Himadri?

- (A) Arijit
- (B) Debashish
- (C) Elangovan
- (D) Frederick

• • •

53. Arijit, Biplab, Chintan, Debashish, Elangovan, Frederick, Gautam and Himadri are sitting around a circular table. Some information about the order in which they are sitting is available as follows:

1. Debashish is sitting opposite to Himadri and to the immediate right of Gautam.
2. Elangovan is sitting to the immediate right of Biplab.
3. Arijit is sitting opposite Chintan who is not immediately next to Frederick on either side.

Who is sitting opposite Biplab?

- (A) Arijit
- (B) Debashish
- (C) Frederick
- (D) Himadri

• • •

54. Arijit, Biplab, Chintan, Debashish, Elangovan, Frederick, Gautam and Himadri are sitting around a circular table. Some information about the order in which they are sitting is available as follows:

1. Debashish is sitting opposite to Himadri and to the immediate right of Gautam.
2. Elangovan is sitting to the immediate right of Biplab.
3. Arijit is sitting opposite Chintan who is not immediately next to Frederick on either side.

Who is to the immediate right of Chintan?

- (A) Arijit
- (B) Biplab
- (C) Elangovan
- (D) Himadri

• • •

55. Select the alternative that logically follows the two given statements:

Some rocks are not tables.

Some rocks are balloons.

- (A) Some tables are not balloons
- (B) Some tables are balloons
- (C) Some balloons are not tables
- (D) None of the above

• • •

56. A, B, C, D and E sit on a long bench. C does not sit next to A or E. A and E have three persons sitting between them.

Who is sitting in the middle of the bench?

- (A) B
- (B) C
- (C) D
- (D) None of these

• • •

57. Directions: A, B, C, D and E sit on a long bench. C does not sit next to A or E. A and E have three persons sitting between them. Who are sitting at the extreme ends of the bench?

- (A) A & E
- (B) B & D
- (C) C & E
- (D) None of these

• • •

58. Observe the following table showing the yearly commission earned (figures in Rupees) by five salesmen and answer the question below.

Year	Salesman A	Salesman B	Salesman C	Salesman D	Salesman E
1990	27350	26850	26200	27850	28640
1991	28500	27900	27900	30040	29000
1992	25200	27400	28200	29800	28750
1993	29800	28000	29100	30060	30000
1994	24600	28500	29400	29800	29750
1995	27000	29000	30000	32000	29700

In the year 1994, the commission earned by salesman D was approximately what percent more of the commission earned by A?

- (A) 18
- (B) 82.5
- (C) 21
- (D) 17

• • •

59. Observe the following table showing the yearly commission earned (figures in Rupees) by five salesmen and answer the question below.

Year	Salesman A	Salesman B	Salesman C	Salesman D	Salesman E
1990	27350	26850	26200	27850	28640
1991	28500	27900	27900	30040	29000
1992	25200	27400	28200	29800	28750
1993	29800	28000	29100	30060	30000
1994	24600	28500	29400	29800	29750
1995	27000	29000	30000	32000	29700

In the year 1993, the commission of B was approximately what per cent of the total commission earned by five salesmen that year?

- (A) 30
- (B) 20
- (C) 40
- (D) 80

• • •

60. Find the missing number in the following set of numbers.

Column I Column II

2	2
4	14
6	34
8	?
10	98

- (A) 30
- (B) 62
- (C) 42
- (D) 78

• • •

61. There are 6 volumes of books on a rack kept in order (Vol. 1, Vol. 2 and so on). After some readers used them, their order got disturbed. The changes are as follows:

Vol. 5 was directly to the right of Vol. 2.

Vol. 4 has Vol. 6 to its left, and both Vol. 4 and Vol. 6 were not at Vol. 3's original place.

Vol. 1 has Vol. 3 on its right and Vol. 5 on its left.

An even numbered volume is at Vol. 5's original place.

Find the order in which the books are now kept, from the given alternatives.

- (A) 6, 3, 5, 1, 4, 2
- (B) 4, 6, 3, 5, 1, 2
- (C) 3, 4, 1, 6, 5, 3
- (D) 2, 5, 1, 3, 6, 4

• • •

62. All German philosophers, except for Marx, are idealists. From which of the following can the statement above be most properly inferred?

- (A) Except for Marx, if someone is an idealist philosopher, then he or she is German.
- (B) Marx is the only non-German philosopher who is an idealist.
- (C) If a German is an idealist, then he or she is a philosopher, as long as he or she is not Marx.
- (D) Marx is not an idealist German philosopher.

• • •

63. Ramaswami was studying for his examinations and the lights went off. It was around 1:00 a.m. He lighted two uniform candles of equal length but one thicker than the other. The thick candle is supposed to last six hours and the thin one two hours less. When he finally went to sleep, the thick candle was twice as long as the thin one. For how long did Ramaswami study in candle light?

- (A) 2 hours
- (B) 3 hours
- (C) 2 hours 45 minutes
- (D) 4 hours

• • •

64. The numerator and denominator of a fraction is in the ratio 2:3. If 6 are subtracted from the numerator the value of the fraction becomes $\frac{2}{3}$ of the original fraction. The numerator of the original fraction is,

- (A) Nitin Nohria
- (B) Deepak Jain
- (C) Kim Clark
- (D) None of these

• • •

111.

"The emancipation of women", James Joyce told one of his friends, "has caused the greatest revolution in our time."

Other modernists agree: Virginia Woolf, claiming that in about 1910 "human character changed" and illustrating the new balance between the sexes, urged, "Read the 'Agamemnon' and see whether your sympathies are not almost entirely with Clytemnestra". D.H. Lawrence wrote "perhaps the deepest fight for 200 years and more has been the fight for women's independence".

But if modernist writers considered women's revolt against men's domination as one of their "greatest" and "deepest" themes, only recently, perhaps in the past 15 years has literary criticism begun to catch up with it. Not that the images of sexual antagonism that abound in modern literature have gone unremarked - far from it. We are able to see in literary works the perspective we bring to them and now that women are enough to make a difference in reforming canons and interpreting literature, the landscapes of literary history and the features of individual books have begun to change.

According to the passage, modernists are changing literary criticism by:

- (A) Noting instances of hostility between men and women
- (B) Seeing literature from fresh points of view
- (C) Studying the works of early twentieth-century writers
- (D) Reviewing books written by feminists

• • •

112.

"The emancipation of women", James Joyce told one of his friends, "has caused the greatest revolution in our time."

Other modernists agree: Virginia Woolf, claiming that in about 1910 "human character changed" and illustrating the new balance between the sexes, urged, "Read the 'Agamemnon' and see whether your sympathies are not almost entirely with Clytemnestra". D.H. Lawrence wrote "perhaps the deepest fight for 200 years and more has been the fight for women's independence".

But if modernist writers considered women's revolt against men's domination as one of their "greatest" and "deepest" themes, only recently, perhaps in the past 15 years has literary criticism begun to catch up with it. Not that the images of sexual antagonism that abound in modern literature have gone unremarked - far from it. We are able to see in literary works the perspective we bring to them and now that women are enough to make a difference in reforming canons and interpreting literature, the landscapes of literary history and the features of individual books have begun to change.

The author quotes James Joyce, Virginia Woolf and D.H. Lawrence primarily in order to show that:

- (A) These were feminist writers
- (B) Although well-meaning, they were ineffectual
- (C) Before the twentieth century, there was little interest in women's literature
- (D) None of the above

• • •

113.

"The emancipation of women", James Joyce told one of his friends, "has caused the greatest revolution in our time."

Other modernists agree: Virginia Woolf, claiming that in about 1910 "human character changed" and illustrating the new balance between the sexes, urged, "Read the 'Agamemnon' and see whether your sympathies are not almost entirely with Clytemnestra". D.H. Lawrence wrote "perhaps the deepest fight for 200 years and more has been the fight for women's independence".

But if modernist writers considered women's revolt against men's domination as one of their "greatest" and "deepest" themes, only recently, perhaps in the past 15 years has literary criticism begun to catch up with it. Not that the images of sexual antagonism that abound in modern literature have gone unremarked - far from it. We are able to see in literary works the perspective we bring to them and now that women are enough to make a difference in reforming canons and interpreting literature, the landscapes of literary history and the features of individual books have begun to change.

The author's attitude towards women's reformation of literary canons can best be described as one of:

- (A) Ambivalence
- (B) Antagonism
- (C) Indifference
- (D) Endorsement

• • •

114.
