

The graphic is a promotional banner for a Class 10 Geography PYQ PDF. It features a dark green background on the left and a lighter green background on the right. A white rounded rectangle at the top left contains the text 'CLASS 10 | GEOGRAPHY'. Below it, 'CHAPTER 4 | PYQ' is written in orange, followed by 'Agriculture' in large white letters. Further down, it says 'Contemporary India II' and 'Farming types, cropping seasons and major crops'. On the right side, there are four colored boxes: a white box with 'RABI CROPS', an orange box with 'KHARIF SEASON', a light blue box with 'MAJOR CROPS', and a white box with 'FREE PDF'. At the bottom left, an orange bar contains 'PYQ PDF | 2026-27 BOARD REVISION'. At the bottom right, a white rounded rectangle contains the 'collegedunia' logo.

## Class 10 Geography PYQ

### Agriculture

Chapter 4 board-style practice pack for 2026-27 revision

Source note: The local chapterwise PYQ sheet has no Class 10 Geography worksheet. This PDF uses NCERT Chapter 4 themes and CBSE-style board practice prompts transparently. It is meant for chapter-wise revision before full-paper practice.

#### One-Mark and Two-Mark Checks

- Q1. Why is India called an agriculturally important country? [one-mark practice]
- Q2. Name one primitive subsistence farming practice used in India. [one-mark practice]
- Q3. What is intensive subsistence farming? [one-mark practice]
- Q4. Name one kharif crop and one rabi crop. [one-mark practice]
- Q5. Which crop is known as a beverage crop? [one-mark practice]
- Q6. State one climatic condition required for rice cultivation. [one-mark practice]
- Q7. What is the main fibre crop grown in black soil areas? [one-mark practice]
- Q8. Name one institutional reform introduced for farmers. [one-mark practice]

#### Three-Mark and Four-Mark Questions

- Q9. Explain any three features of primitive subsistence farming. [three-mark practice]

**Q10.** Differentiate between rabi and kharif cropping seasons with examples. [three-mark practice]

**Q11.** Describe the conditions required for wheat cultivation in India. [three-mark practice]

**Q12.** Mention three features of commercial farming. [three-mark practice]

**Q13.** Why are millets called coarse grains? Give examples. [three-mark practice]

**Q14.** Explain the importance of pulses in Indian agriculture. [three-mark practice]

**Q15.** How did the Green Revolution change farming in India? [three-mark practice]

## Five-Mark Long Answers

**Q16.** Agriculture is the mainstay of the Indian economy. Explain with suitable points. [five-mark practice]

**Q17.** Compare primitive subsistence farming, intensive subsistence farming and commercial farming. [five-mark practice]

**Q18.** Describe the climatic and soil conditions required for major crops such as rice, wheat, cotton and tea. [five-mark practice]

**Q19.** Explain the major technological and institutional reforms introduced in Indian agriculture. [five-mark practice]

**Q20.** Why is crop diversification important for Indian farmers? Explain with examples. [five-mark practice]

## Case-Based Practice

**Q21.** A farmer grows rice during the monsoon season in a region with high rainfall. Identify the season and explain two crop conditions. [case-based practice]

**Q22.** A farm uses HYV seeds, irrigation, fertilisers and machines to grow crops for market sale. Identify the farming type and explain two features. [case-based practice]

**Q23.** A region with black soil grows cotton on a large scale. Explain why this crop suits the region and name one related industry. [case-based practice]

## Revision Grid

| Topic         | Must include                                        | Common error to avoid            |
|---------------|-----------------------------------------------------|----------------------------------|
| Farming types | subsistence, intensive and commercial features      | writing only crop names          |
| Seasons       | rabi, kharif, zaid and correct examples             | mixing wheat with kharif         |
| Major crops   | climate, soil, region and use                       | listing crops without conditions |
| Reforms       | technology, credit, MSP, insurance and land reforms | listing slogans without measures |

## Answer Map for Quick Revision

1. For crop questions, mention climate, soil, region and one use.
2. For season questions, keep rabi, kharif and zaid examples separate.
3. For farming-type questions, write scale, input use and purpose.
4. For reform questions, connect the measure with farmer income or productivity.
5. For case-based questions, identify the clue first, then explain it.

### Agriculture PYQ Focus

Revise farming types, seasons, crops and reforms in one frame

#### Farming Types

primitive subsistence, intensive subsistence and commercial farming

#### Seasons

rabi, kharif and zaid with correct crop examples

#### Major Crops

rice, wheat, millets, pulses, tea, coffee, cotton and jute

#### Reforms

land reforms, Green Revolution, support price, insurance and credit

**Strong answers link crop conditions with regions and examples.**

### Answer Map

1

Identify whether the question asks type, season, crop, condition or reform

2

Add climate, soil, rainfall or temperature when a crop is asked

3

Use region examples such as Punjab, Assam, Deccan, Ganga plain or coastal areas

4

Close with productivity, food security or farmer-support point when relevant

**Do not mix rabi and kharif crop examples in season-based answers.**
