INDIA'S LEADING AI UNIVERSITY

18 Years of
Excellence

Dr. Sanjay Jasola

Vice Chancellor

B.tech (CSE), M.tech (CST)

IITR, Ph.D. (CS)-JNU

FIE, FIETE, LM-CSI, ISTE, SM-IEEE

As the Vice Chancellor of DBS Global University, I am honoured to welcome you to an institution where innovation, excellence, and holistic development converge. Our commitment to nurturing creative thinkers and ethical leaders is unwavering, as we strive to provide an education that transcends traditional boundaries.

DBS Global University stands at the forefront of academic innovation by integrating Artificial Intelligence (AI) and Generative AI into our curriculum. As one of the first leading universities to embrace these transformative technologies, we ensure that our students are equipped with cutting-edge skills, preparing them to meet the evolving demands of the industry. This proactive approach guarantees that our graduates emerge as confident, industry-ready professionals capable of leading in a rapidly changing world.

At DBS Global University, experiential learning is a cornerstone of our philosophy. Through hands-on projects, industry collaborations, and immersive learning experiences, we provide students with the tools to bridge the gap between theory and practice. Our interdisciplinary programs, enriched by modern infrastructure and a vibrant campus life, empower students to tailor their academic journeys to align with their goals and aspirations.

Our dedication to experiential and future-focused learning is further evidenced through our Career Development Cell, which facilitates placements with over 350 companies annually. Alongside academic rigor, we foster a rich campus environment that includes sports, cultural activities, international immersion programs, and student-led initiatives.

We are keenly aware of the enormous responsibility that a higher education institution must bear. Besides imparting knowledge and subject expertise, we prepare our students to thrive in their careers and contribute meaningfully to the global community. Our vision of internationalization finds expression in our pedagogical practices, cultural diversity, and global outlook.

I invite you to explore the extensive range of resources and opportunities that DBS Global University offers. Join us in our pursuit of knowledge, innovation, and societal impact. Together, let us build a legacy of excellence and leadership for a better future.

OUR VISION

To be globally recognized for delivering quality education and embracing emerging technologies & innovation, while empowering future leaders to shape a sustainable and progressive world.

OUR MISSION

- Deliver high-quality education that aligns with global standards of accreditations and rankings.
- Embrace and integrate emerging technologies and innovative practices to prepare students with skills for the future.
- Promote inclusivity, ethics, and global awareness to equip graduates for addressing complex challenges and driving positive change.
- Cultivate a peer learning and collaborative environment that fosters personal, academic, and societal progress.

Higher Education Review

Mr. Mohit Aggarwal

The President
BE, MBA
Education Entrepreneurship Program,
University of Oxford and IIM Ahmedabad

This institution distinguishes itself through an innovative approach to education, offering interdisciplinary programs intertwining business, liberal and computing fields that empower students to shape their academic journeys. The freedom to design a personalized path aligned with individual goals and interests sets DBS Global University apart, providing students with a game-changing opportunity to carve a successful and enduring career trajectory.

What truly sets DBS Global University apart is its commitment to an individualized approach, ensuring that each student's academic and professional inspiration is nurtured. This approach encourages a continuous cycle of exploration, experimentation, development, and creation, preparing students not just for a degree but for a lifelong journey of intellectual and professional growth. In choosing DBS Global University, students embark on an educational adventure that goes beyond traditional boundaries, fostering a community of forward-thinkers and visionaries ready to shape the future.

DGU

Advantages

 International Exposures through tours to Singapore / Dubai / Hongkong / Indonesia / Turkey.	 Opportunities for International pathways Education program for 1 week/2 week/ 3 week/1 year/2 year.	 Germany Certification University Alliance Partnership  USA Certification Business Analytics
 International Collaborations for Faculty Exchange, Student Exchange, apart from online learning.	 Classroom delivery with Industry & Technology partners like HCL, SAS, SAP, Apple, Google and more.	 Excellent placement since inception, international internships and placements.
 Dehradun offers a fantastic living experience - It is a vibrant cosmopolitan with buzzing student life. Weekend getaways include trekking in the Himalays's and adventure sports.	 22+ clubs spanning academics, social & sports leading to holistic personality development.	 Learning by Empowering the entire campus is managed through student committees.
 Outcome Based Learning methodology along with live projects and case studies.	 Artificial Intelligence, Machine Learning, NSE/NISM Certification, few of the contemporary courses; additional certificates along with regular courses.	 Entrepreneurial startups while in campus.
 Focused on creating world class leaders.	 Tie-ups with major banks/ financial institutions for financial support.	 Exposure to different languages for International Pathways.

Dehradun

A Safe and Vibrant Knowledge City

DGU campus is situated in the picturesque city of Dehradun, Capital of Uttarakhand State & known as the 'Knowledge City' of India. Uttarakhand is also called Dev Bhoomi meaning "The Land of Gods". Dehradun is 250 kms from the national capital and is well connected by air, rail and road transport.

DGU campus is spread over an area of about 15 acres in Selaqui, Dehradun. The location offers a definite advantage of being close to Pharmacy and UPSIDC Industrial area and at the same time is surrounded by greenery. The site is very picturesque with the back drop of Shivalik Mountains and beautiful queen of hills, Mussoorie.

Adventurous people find excellent excursion opportunities for sports like white water rafting, ice skiing, wind surfing, camping and admirable places to visit like Jim Corbett National Park, Hill Station of Mussoorie etc.

The atmosphere in Dehradun is highly conducive to learning. Excellence in teaching has its roots in Dronacharya's times from whom the city gets its name. Dehradun has vibrant industrial activity that enables our students to keep in constant touch with industry. Some of the prominent units are BHEL, ONGC, Tata Motors, ITC, LG, Parle and lots of pharmaceutical units in its neighbourhood.

Ideal Location

Due to vicinity to the industrial base, the students at DGU undertake frequent industrial visits and are exposed to various industries like Pharmaceutical, Packaging, Apparels, White goods, (TV, Fridge), Shoes etc, and get live inputs into management of (MSMEs) Micro, Small, and Medium Enterprises.

Green Campus Award
at the 9th NYC Green School Conference 2025
part of Climate Week NYC.

Resources

We have created a state-of-the-art eco friendly and functionally efficient infrastructure to cater to the needs of our students, faculty and support staff. The class rooms, rest rooms, hostels, library etc have been built according to UGC standards.

The academic block is designed in brick finish with plush interiors and furnishing. The 150,000 sqft. Building has all amenities required for running various courses and has an excellent spacious infrastructure for about 3500 students. The lecture halls are thoughtfully designed in theatrical style to inculcate a sense of discipline and high quality learning, whereas tutorial rooms are furnished in a way to enhance student-teacher interaction.

Open Computer Lab

SAP-Lab

Computing Facilities

DGU has a wi-fi enabled campus with multiple AI/ML, Robotics, Mac Lab, SAP, SAS, Microsoft & IT labs housing more than 300 latest Computers, servers and software facilities. DGU has access to many computerized databases like Capitaline, CMIE (Centre of Monitoring Indian Economy), ICRA, EBSCO etc which are used by its students and faculty for various research work and projects undertaken at DGU. The University lays a lot of emphasis on its students getting hands-on practice on various softwares and working knowledge of using accounting and office packages so that the students find no gap in their learning on joining various corporates.

Its e-learning is backed by a rich diverse content library linked through a Learning Management System. The content library development is being structured in multiple layers to promote incremental learning by tagging core content with supporting teaching resources like mind maps, presentations, question bank, case studies and Video on demand.

Internal Communication is through an e- messaging system. All assignments and classwork is delivered through the ERP system of the Institute and managed on real time basis.

Library and Learning Resources

Besides an extensive collection of books (over 15000) and periodicals in print format, DGU has access to 25000 + e-books for its students.

Apart from the book bank facility, students get to keep more than 100 e-books for lifelong reference. All case studies and projects, assignments and other presentations are provided through the e-library.

Access to journals of global standards is available through subscription.

Book Bank

The institute has arrangement with the Trust to provide all Books for all subjects on returnable basis in each semester for a fixed fee. This ensures standardization and availability of quality study material.

Students from 29 states of India and 5 countries make staying at the campus an enriching experience, enabling learning from each other's culture and cross functional background.

Webinar

In our endeavor to provide the best of the best education, we provide webinar classes for specific lectures. With our education partners in Queensland, Australia and in other parts of the world, we have been successfully conducting and sharing the experiences of Academia and Industry with our Students with this new technology.

Audio Video Learning Aids

A beginning has been made in the acquisition and stocking of video films on management in a small way. The Institute also subscribes to video magazines and regularly uses these to reinforce its classroom sessions. All classes are supported by Audio-Video devices with public address system.

**# IOS Development Center
Powered by Apple**

Mac Lab

Hostel Facility

Institute has made arrangements for outstation candidates in separate hostels for boys & girls. Candidates willing to stay in the hostels shall fill in the request at the time of registration & hostel facility will be provided to them. Staying in the hostel is not compulsory.

Day Boarding

Institute provides day boarding facility to students who wish to avail the facility wherein, Break-fast, Lunch, Tea are provided in the Institute. The timings for day boarders are 8:30 AM to 7:30 PM. The food is provided on buffet basis where-in inclusion/ exclusion of particular meals is permitted.

Mess

The mess at the institute is spacious and equipped with comfortable dining furniture. It provides hygienic and nutritious food to the students. The students decide the weekly menu according to which meals are prepared and served. Mess staff is conscious about the cleanliness and quality of food.

Transport Facility

For the convenience of the non-resident students and staff members, the institute arranges sufficient number of buses at nominal rates. These buses pick the students from most of the locations in Dehradun and adjoining areas to institute & drop them back at fixed time as per the schedule of the college.

Career Development

Making students placement ready is a key focus area at DGU. We have adopted a strategy of targeting placements at the middle level of management rather than at the entry level by providing additional skills and training. Extensive coverage of global trade parameters and best practices of industry ensures that students are well equipped to handle competitive pressures of global business.

Placement assistance is an independent activity managed entirely by the career development cell & by the students through their nominated committee member, under the overall guidance of experienced Placement Coordinators. Moreover, the activity calendar of DGU has incorporated a number of activities which have been designed to promote industry interaction. Relationship building with Corporates through rich knowledge exchange has helped build a trust in our capabilities to nurture talent and impart necessary skills in our students.

CDC has been able to arrange 350+ corporate for in campus placement during the last session giving every students multiple choices in the narrow domain/functional areas.

Career Development Cell

CDC provides counselling and career decision support, emphasizing career development as a lifelong process. The cell organizes special workshops to prepare the students for the selection process. All students are profiled as per their strengths and weaknesses and a specific career guidance plan is prepared for each student that gives insights into professions and industry segment most appropriate to their nature and capabilities. Students are also provided additional training for specific industry sectors.

In addition to corporate visits, industry professionals and other subject experts are regularly called by the career development cell to interact with students and deliver talks on the current developments. The CDC also helps students in locating summer internships. The industry experts and in-house consultants do a skill mapping of every student and encourage him/her to choose a career suitable for his/her personality's skills.

International Internships

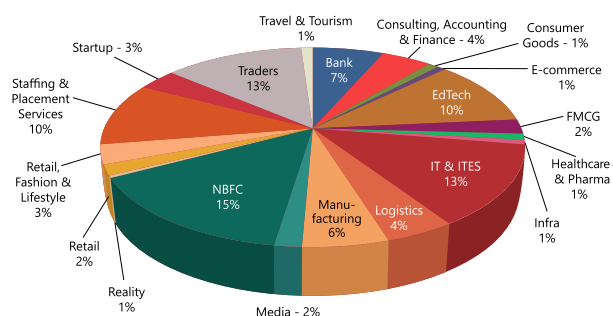

DBS Global University offers internships to its students in Singapore (along with stipend), where in their boarding, lodging & travel to work is all taken care of. International internships are optional & the costs are to be borne by the students & are not included in the fees of the college.

Recruiters

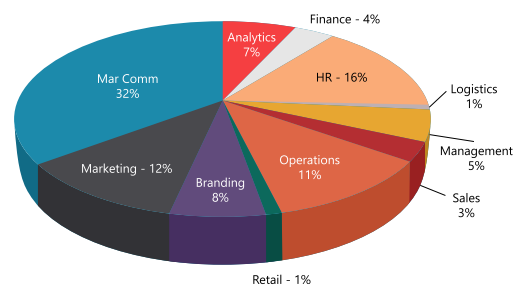

DGU Graduates are exceptionally well in their careers, because of strong emphasis on industry interaction & simulation during the course. They not only join the companies of their choice but also grow much faster than their peers in corporate hierarchy.

International Collaboration

Internationalization at DGU: A Global Vision

At DBS Global University (DGU), our vision is to be globally recognized for delivering quality education, embracing emerging technologies and innovation, and empowering future leaders to shape a sustainable and progressive world.

In alignment with this vision, the Office of International Affairs is established to foster sustainable collaborations with leading universities and institutions worldwide in the fields of higher education and research. Our goal is to expand DGU's global footprint and create transformative opportunities for students and faculty.

The Office of International Affairs Office plays a pivotal role in institutionalizing, streamlining, and standardizing internationalization processes at DGU. To provide global exposure, the university offers 1 week/2 week/3 week/1 year/2 year international immersion programs in Southeast Asia, Dubai, Europe, and Turkey, allowing students to gain first-hand insights into global education and industry practices.

DGU takes immense pride in its expansive global network, facilitating:

Student and
faculty mobility

Joint teaching
initiatives

Research
collaborations

International conferences
and exchange programs

A Future without Borders

Moving forward, DGU remains committed to enhancing its global standing through meaningful international partnerships. Our efforts contribute to positioning Indian higher education as a premier hub of opportunities for students and scholars worldwide.

Integrated BBA + MBA (IPM)

BBA+MBA (Integrated MBA) program at Doon Business School offers a range of benefits that make it an attractive option for students. The integrated program is time-efficient, allowing students to complete both degrees in five years, which is typically the same duration as pursuing the degrees separately but with the added benefit of a seamless transition between undergraduate and graduate studies. The comprehensive curriculum provides a strong foundation in business and management, along with the opportunity to specialize in areas such as Marketing, Finance, HRM, and International Business. Students also

benefit from industry exposure through seminars, industrial tours, and projects, enhancing their job-oriented skills. Additionally, Doon Business School offers international exposure through partnerships with universities in countries like Dubai, Malaysia, Singapore, Thailand, Hongkong. The educational environment is diverse and enriching, with modern facilities that support a well-rounded educational experience. Overall, the BBA+MBA (IPM) program at Doon Business School provides a holistic approach to business education, preparing students for successful careers in management.

Myntra Live Store (for project) at Campus for Students

Students at Silent Showdown

Benefits of BBA+MBA (IPM)

Feature	BBA (3-Year/4-Year with Honours)	Integrated MBA(IPM) (5-Year Program)
Program Duration	3 years (General), 4 years (Honours)	5 years
Curriculum Structure	Basic-level subjects with limited depth	Seamless progression from basic to advanced-level subjects
Subject Repetition	Subjects often repeated in MBA with advanced content	No subject repetition; unique syllabus throughout
Specializations Offered	10 in total (4 Specializations + 6 Super Specializations)	All specializations of BBA and MBA available, option for double major
Internships	2 Internships (2 months each): • 1 Industrial Internship • 1 Social Internship	4 Internships: • 2 Social Internships (2 months each) • 1 Industrial Internship (6 months – 7th Sem) • 1 OJT (6 months – 10th Sem)
Cost & Fees	Separate BBA and MBA fees, MBA cost is 4x higher than BBA	One-time integrated fee [same as BBA (Five Years)], highly cost-effective
Industry Certifications	Limited or optional value-added certifications	High weightage on value-added certifications: • SAS, SAP, Alteryx, NISM, others
Career Continuity	Requires fresh admission into MBA after BBA	Smooth transition without admission process, continuity in learning
Academic Load	Focused on foundational business subjects	Balanced academic load spread over 5 years with strategic skill development
Program Design Philosophy	Segregated degree phases (UG + PG)	Integrated and future-ready design aimed at professional excellence

Alumni Placement Support

Doon Business School offers extended placement support to its graduates, ensuring that students continue to receive valuable career assistance beyond their time on campus. The dedicated career development cell, along with its corporate partners, collaborates to provide ongoing placement opportunities and essential revision classes even after one year of passing out. This initiative is designed to help alumni stay updated with industry trends and enhance their employability.

MBA

Master of Business Administration

The program has been carefully crafted & taught in a manner which accomplishes the objective of creating leaders who make a radical impact in businesses.

MBA is a 2 year full time regular program, the session starts from July-August every year and the students go out for a two months summer training after their second semester. The course consists of four semester which are taught on quarters bases with 4 to 5 subjects in each quarter.

Marketing | HR | Finance | Business Analytics | Logistics & Supply Chain | Agri Business | Digital Transformation | International Business | Healthcare & Pharma | Luxury & Fashion Management | Media & Creative Communication

Tracks in Specialisation

Digital Marketing | Luxury and Fashion | Advertising and Brand Management | Retail and E-Commerce | Talent Architect | Legal Framework in HR | Global Leadership and Organisational Design | Capital Market Investment Banking | Fintech

All programs have flexibility of being clubbed with

- One week residential program at one of Top IIMs
- One/Two week/One month International Immersion program

Marketing (4 Tracks)

DBS Global University's MBA in Marketing is a transformative program designed to shape strategic marketing leaders.

With a focus on cutting-edge marketing strategies, digital transformation, and brand management, the curriculum combines theoretical insights with real-world applications. The programs delve into market research, consumer behaviour, and integrated marketing communication. The program emphasizes critical thinking and problem-solving, preparing graduates to navigate the dynamic marketing landscape. Faculty expertise and industry collaboration ensure a comprehensive understanding of global marketing trends. Graduates emerge as adept marketers, ready to drive innovation, create impactful campaigns, and contribute to the success of organizations in today's competitive business environment.

Human Resource (3 Tracks)

The MBA in Human Resources offers a comprehensive blend of business management principles and specialized HR expertise.

This program focuses on developing strategic HR leaders equipped with the skills to manage diverse workforces, enhance organizational performance, and foster a positive workplace culture. The programs delve deep into HR functions like recruitment, training, compensation, and employee relations, alongside broader business concepts in finance, marketing, and operations. With a curriculum emphasizing leadership, ethics, and data-driven decision-making, graduates emerge prepared to tackle the complexities of modern HR challenges and drive impactful changes within organizations.

Finance (3 Tracks)

The MBA in Finance program offers a comprehensive understanding of financial theories, markets, and strategic financial management.

It program provides analytical skills to make informed financial decisions, emphasizing investment strategies, risk assessment, and financial planning. Through a blend of theoretical knowledge and practical application, the curriculum covers topics like corporate finance, financial markets, derivatives, and international finance. It provides insights into financial modelling, analysis, and reporting, and prepares for diverse roles in banking, investment, corporate finance, and risk management. The program focuses on nurturing financial leaders capable of navigating complex financial landscapes and driving organizational success through sound financial strategies.

Logistics & Supply Chain

MBA in Logistics & Supply Chain Management with SAP programme aims to provide students with the information and abilities required for mid- and senior-level management positions in a range of businesses, both domestically in India and internationally.

With an emphasis on experiential learning, the programme gives students real-world experience through internships and on-the-job training, giving them the ability to apply what they have learned in the classroom to real-world scenarios and giving them an advantage in the job market. Key industrial topics are included in the curriculum, giving students a thorough understanding of the procedures and difficulties faced by the sector. These topics include distribution, warehousing, transportation, inventory management, procurement and global trade practices. With a strong industry interface, practical case studies, live projects and certifications opportunities, this program prepares graduates to optimize processes, reduce costs, and drive value across global supply networks.

Digital Transformation

The Master of Business Administration (MBA) in Digital Transformation is a comprehensive program meticulously crafted to equip professionals with the essential skills and knowledge needed to thrive in the rapidly evolving landscape of digital business.

This industry-relevant MBA is designed to meet the growing demand for leaders who can navigate and leverage digital technologies to drive organizational success. The program engages in a dynamic curriculum that covers a wide spectrum of topics, including digital strategy, innovation management, emerging technologies, and organizational change. The emphasis is on developing a deep understanding of how digital transformation impacts various aspects of business, from marketing and operations to finance and customer experience.

Business Analytics

Elevate your career with a cutting-edge Master of Business Administration program in Business Analytics.

The meticulously designed MBA addresses the surging demand for skilled data analysts. A curriculum centered on real-world applications is embraced, enabling individuals to harness the transformative potential of Data Analytics. Expertise is gained to decode business trends, predict industry shifts, and make pivotal data-driven decisions that propel businesses forward. Tailored for those aspiring to thrive in the expansive realm of "data science," the MBA in Business Analytics promises unparalleled career growth, heightened employability, and enhanced earning potential. Furthermore, seamless complementation is provided for individuals focusing on specific business functions such as accounting, finance, marketing, or operations. The future of business leadership is entered, where analytical prowess is identified as the key to success.

Agri Business

The MBA in Agribusiness is a specialized program meticulously crafted to empower professionals in the vibrant and intricate realm of agricultural business.

Seamlessly intertwining time-honoured agricultural wisdom with contemporary business acumen, this program primes graduates to navigate the nuanced landscape of the agro-based industry. It's an amalgamation of tradition and innovation, honing a skill set that enables individuals to embrace the challenges and harness the boundless possibilities inherent in the agricultural sector. By blending age-old agricultural practices with cutting-edge business strategies, this program not only equips professionals but also fosters visionary leaders prepared to innovate and thrive in the ever-evolving agricultural landscape.

Healthcare & Pharma Management

The Master of Business Administration in Healthcare & Pharma Management is designed to equip professionals with the skills necessary to excel in the rapidly evolving healthcare sector.

This comprehensive program integrates business acumen with industry-specific knowledge, empowering graduates to drive innovation, improve efficiency, and lead strategic decision-making.

International Business

The MBA in International Business at DBS Global University is a transformative program blending business acumen with a global perspective.

Designed for future leaders, it equips with strategic insights into international markets, cross-cultural management, and global trade dynamics. The curriculum integrates case studies, simulations, and international experiences, fostering a comprehensive understanding of business on a global scale. With a focus on innovation, sustainability, and ethical leadership, graduates emerge ready to navigate the complexities of international business, drive growth, and make a positive impact in a rapidly evolving global economy.

Media & Creative Communication

The MBA Media & Creative Communication program at the School of Modern Media is a comprehensive postgraduate degree designed to prepare aspiring professionals for leadership roles in the ever-evolving media landscape.

This specialized program integrates advanced management strategies with a profound understanding of media dynamics, creativity, and communication trends. Provides a comprehensive curriculum that encompasses media planning, content creation, digital communication, and strategic management. Emphasis is placed on hands-on learning, industry-relevant projects, and exposure to cutting-edge technologies. The program aims to foster creative thinking, strategic decision-making, and effective leadership in media organizations.

Luxury & Fashion Management

The MBA Luxury and Fashion Management program (from School of Modern Media) is an all-encompassing postgraduate degree meticulously crafted to prepare aspiring professionals for leadership roles in the dynamic and opulent world of luxury and fashion. The program becomes an exclusive key to this world, where not only knowledge is gained but also a strategic mastery to navigate the intricacies of luxury fashion management. The program provides a transformative journey shaping individuals into well-rounded professionals, delving deep into the dynamics of design, production, branding, marketing, and global expansion within the fashion industry.

Student Foreign Education Immersion Program

Summer Abroad | Semester Abroad | One Year Abroad

Students can take on new academic challenges and enhance their learning experiences by taking advantage of the fascinating global opportunities that DBS Global University offers. Studying abroad provides students with the exceptional opportunity to immerse themselves in a foreign culture and form lifelong relationships with people from all over the world. While studying abroad, students gain new perspectives and face intellectual challenges that help them grow both academically and personally.

At DBS Global University, students will have the chance to join the Education Immersion Program. They can choose from a variety of study abroad options, including One Week, Two Week, One Month, Two Months, Six Months, and One Year programs at over 50+ partner universities and institutions worldwide.

SAS provides an opportunity for global certifications from SAS in Analytics, AI & ML, giving you a competitive advantage in the global job market. SAS is world leader in analytics. SAS Programming and its Visual Business Analytics, significantly enhance your skills in the dynamic field of data analytics and in growing market of AI.

SAS Modules Essentials (Querying and Reporting-Code based Approach), Programming in Viya (Cloud), SAS® Enterprise Guide®: ANOVA, Regression, and Logistic Regression, Application of Machine Learning Using SAS(R) Viya®

Doon School of Advanced Computing

DBS Global University is proud to present its prestigious Doon School of Advanced Computing, home to the Department of Computer Science and Engineering. This school is committed to delivering cutting-edge education that aligns with the New Education Policy (NEP), preparing students to excel in the ever-evolving field of Information Technology.

Our B. Tech programs in Computer Science and Engineering at DBS Global University offer a comprehensive and cutting-edge curriculum, designed to empower students with a deep understanding of foundational principles and advanced technologies.

With a focus on hands-on learning, students engage in real-world projects, gaining practical experience in areas like software development, artificial intelligence, and cybersecurity. Our distinguished faculty, state-of-the-art labs, and industry collaborations ensure that graduates emerge as highly skilled professionals, ready to meet the evolving demands of the tech industry. At DBS Global University, the B. Tech in Computer Science and Engineering opens doors to a future where innovation and expertise converge for limitless possibilities.

The B. Tech program in Computer Science and Engineering (CSE) is a dynamic undergraduate course that provides a solid foundation in the fundamental principles of computing.

Covering core areas such as algorithms, data structures, programming languages, computer architecture, and software engineering, the program equips students with a comprehensive skill set. Emphasizing hands-on learning, students engage in practical projects and laboratory work, gaining valuable experience to address real-world challenges. The curriculum is designed to align with industry needs, ensuring that graduates are well-prepared for diverse career opportunities in software development, system analysis, and other technology-related fields.

Program Offered

Doon School of Advanced Computing offers a range of meticulously designed Programs aimed at developing future leaders in computing:

B.Tech Computer Science & Engineering (CSE)

with specialization (Minor) in AI&ML / Cyber Security / Data Science / Apple-IOS Development / Full Stack / Cloud Computing / IOT / Drone Technology / Robotics / Finance / Smart Agriculture / Media | Total - 160 Credits

with Dual Specialization (Major) in Association with HCLTech (Major-AI & ML / Data Science / Cyber Security)
Total - 180 Credits

with AI&ML and T-Skill (Minor)

T-Skill - Full Stack / Cloud Computing / IOT / Drone Technology / Robotics
/ Finance / Smart Agriculture / Media / Apple-IOS Dev | Total - 169 Credits

with Quantum Computing | Total - 169 Credits

Integrated B.Tech CSE + MBA (5.5 years)

Integrated B.Tech + M.Tech

M.Tech CSE with specialization in Artificial Intelligence & Data Science | Cyber Security & Ethical Hacking

BCA | BCA with specialization in Data Analytics | Machine Learning (HCL Tech)

MCA with specialization in Full Stack Development

PhD

The B.Tech. CSE and BCA programs at DBS Global University are crafted in collaboration with industry leaders, ensuring that they are co-designed, co-delivered, and co-certified. This unique approach bridges the gap between academia and industry, providing students with real-world skills and knowledge.

The curriculum is structured to include:

An industry partner plays a crucial role in co-designed, co-delivered, and co-certified undergraduate (UG) programs by bridging the gap between academia and industry. Their involvement ensures that students gain industry-relevant skills, making them more employable. Here's how they contribute at each stage:

Co-Designed Curriculum

Industry partners collaborate with academia to design the curriculum by:

Identifying emerging trends and skills needed in the industry.

Incorporating real-world case studies, projects, and tools used in the field.

Ensuring alignment with industry certifications and job roles.

Providing internship and placement opportunities as part of the course structure.

Co-Delivered Courses

Industry experts contribute to program delivery through:

Guest lectures, masterclasses, and hands-on workshops.

Conducting hackathons, live projects, and simulations.

Mentoring students on capstone projects and research assignments.

Hosting industrial visits and internships for practical exposure.

Co-Certified Credentials

Industry certification enhances the credibility of the program through:

Issuing joint certifications with the university.

Aligning the curriculum with recognized industry certifications (e.g., AWS, Microsoft, Cisco).

Evaluating projects and skills to ensure industry standards.

Offering fast-track recruitment or internship opportunities to certified graduates.

Benefits of Industry Collaboration

Enhanced employability : Graduates gain job-ready skills.

Industry-aligned learning : Students work on real-world problems.

Faculty development : Educators stay updated with industry trends.

Stronger industry-academia ties : Leads to more research and innovation opportunities.

Program Delivery

- » Experiential Learning
 - » Project-Based Learning
 - » Industry-Relevant Subjects
- » **"T" Skillset Development** - The hallmark of our programs is the "T" Skillset model. This approach ensures that students gain:
- Depth of Technological Knowledge: Specialized expertise in one core area of IT.
 - Breadth of Domain Knowledge: A broad understanding of related domains to apply their core expertise effectively.
- This model equips graduates with a comprehensive skillset that is highly valued in the industry, making them versatile and adaptable professionals.

Student Engagement and Opportunities

Throughout their academic journey, students will engage in:

- » **Three Internships:** Opportunities to work with leading companies, gaining valuable industry experience.
- » **Four Projects:** Collaboration on innovative projects that push the boundaries of current technology.
- » **Industry Partnerships:** Direct interaction with industry experts through seminars, workshops, and mentorship programs.
- » Internships with Leading Tech Companies
- » Industry-Centric Research Projects
- » Faculty-Student Research Collaboration
- » Research Conferences and Publications
- » Soft Skills Training
- » Networking Mixers and Industry Panels
- » Alumni Mentorship Programs
- » Start-up Incubators/Accelerators
- » Innovation Challenges and Business Plans
- » Student-Led Technical Clubs
- » Interdisciplinary Courses and Minors
- » Community Engagement & Social Impact
- » Access to National/International Hackathon

Career Opportunities

AI Engineer, Data Scientist, Cyber Security Analyst, IT Consultant, Network Security Engineer, AI Product Manager, Research scientists, Data Analyst, Data Engineer, Business Intelligence Analyst, Cyber security analysts, Forensic experts, IT security consultants, Network security engineers, Testing and hacking and many more.

India's Most Advanced Drone Lab

(Defence Grade)

DBS Global University, Dehradun, proudly announces the establishment of a Drone Manufacturing, Testing, and Research Facility under its Doon School of Advanced Computing. The state-of-the-art lab is equipped with comprehensive infrastructure for Drone manufacturing, 2D and 3D flight testing platforms, and autonomous systems development and validation. The facility hosts five categories of drones, covering aerial surveillance, delivery systems, and autonomous reconnaissance technologies.

DBS Global University has this advanced facility—fostering training, innovation, testing, and indigenous development in unmanned systems and defense technologies.

Integrated B.Tech + M.Tech

DBS Global University's integrated B. Tech + M. Tech program stands out with its commitment to fostering innovation and multidisciplinary excellence.

The curriculum not only imparts strong technical foundations but also encourages to explore emerging technologies through immersive projects and research initiatives. The program uniquely emphasizes sustainable engineering practices, preparing graduates to address global challenges. With a focus on industry collaboration, engages in internships, corporate partnerships, and collaborative projects, ensuring practical exposure. The state-of-the-art research facilities and a vibrant academic community enhance the overall learning experience, making University the ideal choice for those aspiring to lead at the intersection of technology and engineering innovation.

Specializations:

- Cyber Security & Ethical Hacking
- Artificial Intelligence & Data Science

Key Features:

- Accelerated learning path for advanced technical expertise
- Strong research orientation
- Industry-led curriculum with practical problem-solving

Integrated B. Tech CSE + MBA

The integrated B. Tech CSE + MBA program seamlessly combines technical proficiency with advanced managerial skills, creating versatile professionals ready to navigate the complexities of the modern business landscape.

Provides rigorous training in engineering disciplines alongside strategic business courses, ensuring a holistic understanding of industry challenges. This unique fusion prepares for leadership roles to effectively bridge the gap between technology and business objectives. With a focus on innovation, problem-solving, and entrepreneurship, this program empowers individuals to thrive in dynamic careers, from technology management to entrepreneurial ventures, fostering a new generation of agile and visionary professionals.

Why Choose an Integrated Degree?

- Combines technical expertise with business acumen
- Prepares students for leadership roles in the tech industry
- Focuses on technology management, consulting, and entrepreneurship

M.Tech

Artificial Intelligence & Data Science

The M. Tech. CSE with specialization in Artificial Intelligence and Data Science immerses students in advanced AI technologies as well as the knowledge of Data Science. The program covers statistical, analytical, and machine learning skills to extract meaningful insights from data through data visualization. Their key learning includes data collection and management, data analysis and visualization; data interpretation through machine learning models, and translating findings into real-world solutions. In the digital age, data is often referred to as the 'new oil'.

Cyber Security & Ethical Hacking

The M. Tech. CSE with specialization in Cyber Security & Ethical Hacking focuses on protecting networks, computers, programs, and data from unauthorized access and damage. It includes courses on cyber security, data forensics, IT application security, network security, and information security, Reverse Engineering. The program also covers cyber forensics, helping students understand the digital document chain for investigations.

Graduates can pursue roles as

- AI engineers
- Data scientists
- AI Product Manager
- Research scientists
- Data Analyst
- Data Engineer
- Business Intelligence Analyst

MCA

The MCA with specialization in Full Stack Development offers a comprehensive education in computer application development with a focus on full stack software development. The curriculum combines front-end and back-end application development with competitive programming modules, providing students with hands-on experience. This program prepares graduates to design, develop, manage, and maintain applications to meet industry needs, enhancing their proficiency in user experience design and logic comprehension for complex business applications.

Key Features

- Focus on front-end & back-end development
- Training in competitive programming and DevOps
- Hands-on exposure to modern web and application development

Graduates can pursue roles as

- Full stack developers
- Software engineers
- Web developers
- Front-End Developer
- Back-End Developer
- Test Automation Engineer
- DevOps Specialist
- Java Developer

The skills gained are valuable across industries like healthcare and finance, where intelligent systems and predictive analytics are transforming operations. The growing demand for AI and ML expertise ensures a wealth of opportunities for proficient professionals.

BCA

A Bachelor of Computer Applications (BCA) is an undergraduate degree program that teaches students about computer applications and information technology.

- Technical Analyst
- Software Testers
- Web Developer
- Digital Marketer
- Software Developer
- Banking Sector
- E-commerce Executive
- Database Management

Career Opportunities

Graduates can pursue careers as

Software Developer, Data Analyst, Business Intelligence Analyst, Computer Vision Engineer, Web Developer.

Bachelor of Computer Applications (BCA) with Specialization in Data Analytics - HCLTech

with Specialization in Machine Learning - HCLTech

Bachelor of Computer Applications (BCA) with a dual specialization is an undergraduate degree program that focuses on computer applications and software development with skills in Data Analytics/Machine Learning

The program is offered in co-design, co-delivered and co-certified model in association with HCLTech and a few courses are taught by the subject matter experts from IT Industry to prepare the students to become Industry ready for creating solutions for the society.

Program Highlights:

- Industry-relevant program
- Dual Specialization
- Hands-on training with real-world application
- Industry-certified credentials in collaboration with HCLTech

B.A. Film & TV (3 Years)

Graduate with a Film, a Portfolio, and a Network

This 3-year full-time undergraduate programme, spread across six semesters, is designed in collaboration with acclaimed filmmakers and industry experts to provide students with unmatched mentorship and practical experience. With guidance from renowned names like Dipankar Jojo Chai (Pink), Gautami Vegyaraju (Bajirao Mastani), and Aseem Bajaj (Sacred Games), students benefit from direct industry insights. Partnerships with Mumbai's HK Studios Education and Purple People Labs, along with access to world-class infrastructure at HK Studio Mumbai and JSR Studios Dehradun, ensure hands-on training with cutting-edge media technologies. Each year, students produce a film, participate in real-world projects, and showcase their work at multiplexes and international festivals. Set in the vibrant and film-supportive city of Dehradun—bolstered by policies from the Uttarakhand Film Development Council (UFDC)—the programme offers added advantages such as tax incentives for productions and a student-friendly environment with affordable living and safe, homely residential facilities at DBS Global University.

Make Your Mark in the Digital World

B.A. Digital Media & Mass Communication (3 Years)

Graduate with a Portfolio, a Campaign, and a Career Plan.

This 3-year full-time undergraduate programme, spread across six semesters, is built to prepare students for the fast-changing digital media and communication industry. The programme strikes a dynamic balance between theory and practice, focusing on hands-on learning, innovative thinking, and future-ready skills.

Crafted with insights from industry experts and driven by real-world projects, the curriculum evolves with the media landscape ensuring you don't just keep up, but lead.

Backed by facilities like the AI Lab, Podcast Studio, and Media Lab, students work with the latest tech and tools. The programme culminates in a professional-level capstone project, equipping graduates with a standout portfolio and an industry-ready mindset.

Set in Dehradun, a growing hub for creativity and communication, students benefit from a vibrant, affordable, and supportive ecosystem for learning and living.

B.Sc Agriculture (Hons.) Duration : 4 years

The B.Sc. Agriculture program at Doon School of Modern Agriculture is a comprehensive undergraduate degree designed to cultivate skilled professionals in the agricultural domain.

This program integrates theoretical knowledge with hands-on practical experience, covering diverse aspects such as crop science, soil management, pest control, and sustainable farming practices. The program provides insights into the latest agricultural technologies and innovations and prepares them for roles in farm management, agribusiness, and research. With a focus on fostering sustainability and environmental responsibility, the program equips graduates to address the challenges of modern agriculture and contribute to the advancement of the agricultural sector.

B.Sc Forestry (Hons.) Duration : 4 years

The B.Sc. Forestry program at DBS Global University is designed to cultivate professionals with a deep understanding of forest ecosystems, conservation, and sustainable resource management.

The program explores diverse aspects of forestry, including tree biology, wildlife conservation, and forest policy. Practical fieldwork, industry exposure, and research opportunities provide hands-on skills. With a focus on environmental stewardship, graduates emerge ready to contribute to sustainable forest management, biodiversity conservation, and ecological balance, making a positive impact on the environment and local communities.

B.Sc Agri Business (Hons.) Duration : 4 years

The B.Sc in Agribusiness is a specialized program meticulously crafted to empower professionals in the vibrant and intricate realm of agricultural business.

Seamlessly intertwining time-honoured agricultural wisdom with contemporary business acumen, this program primes graduates to navigate the nuanced landscape of the agricultural industry. It's an amalgamation of tradition and innovation, honing a skill set that enables individuals to embrace the challenges and harness the boundless possibilities inherent in the agricultural sector. By blending age-old agricultural practices with cutting-edge business strategies, this program not only equips professionals but also fosters visionary leaders prepared to innovate and thrive in the ever-evolving agricultural landscape.

M.Sc Agronomy Duration : 2 years

The M.Sc. in Agronomy is a specialized postgraduate program that delves into advanced studies of crop production and management.

The comprehensive curriculum encompasses soil science, crop physiology, pest management, and sustainable agriculture practices. It provides expertise in optimizing crop yields, employing precision farming techniques, and addressing challenges in modern agriculture. With a strong focus on research, the program prepares individuals for careers as agronomists, researchers, and consultants, fostering a deep understanding of sustainable and innovative approaches to enhance global food production and meet the evolving demands of the agricultural industry.

MBA Agri Business Duration : 2 years

The MBA in Agribusiness is a specialized program meticulously crafted to empower professionals in the vibrant and intricate realm of agricultural business.

Leading the Way in Pharmaceutical Innovation

DBS School of Pharmacy and Research

DBS School of Pharmacy and Research approved by Pharmacy Council of India (PCI) offers Diploma & Undergraduate programs that prepare students to become pharmacists or pharmaceutical professionals.

Pharmacy programs prepare students for careers in healthcare, focusing on the development, production and safe dispensing of medication. Core degrees include a 4-year Bachelor of Pharmacy (B.Pharm.), 3-year Bachelor of Pharmacy (Lateral Entry) (B.Pharm. LE) and a 2-year Diploma (D.Pharm.). Graduates are trained in pharmaceutical chemistry, pharmacology and patient care, qualifying them to work as pharmacists in hospitals, industry or retail.

Bachelor of Pharmacy (B.Pharm.)

B.Pharm. is a four-year professional program approved by Pharmacy Council of India (PCI) divided into eight semesters that deals with the study of medicines. The core subjects of the B.Pharm. course include pharmaceutical chemistry (chemistry of medicinal compounds), pharmaceuticals (manufacturing of dosage forms such as tablets, capsules etc.), pharmacology (action of drugs on the body and action of the body on the drugs) and pharmacognosy (medicinal drugs obtained from plants and other natural sources).

In addition to imparting classroom teaching, students of B.Pharm. are provided with clinical and community exposure so that they become active change-makers and solution providers in the healthcare domain. On-the-job training through internships and clinical rotations in pharmacies and healthcare facilities are also imparted to B.Pharm. students, thereby helping them become eligible for licence exams to become registered pharmacists after successfully completing the programme. After completing a B.Pharm. programme, graduates can pursue careers as pharmacists, pharmacy technicians and pharmaceutical researchers, among others.

Lateral Entry in B.Pharm. is also available.

Diploma in Pharmacy (D.Pharm.)

Diploma in Pharmacy is an undergraduate Diploma course in Pharmaceutical Sciences offered by DBS School of Pharmacy & Research also known as D.Pharm. in the field of Pharmacy is approved by Pharmacy Council of India (PCI). A person who has completed D.Pharm. can be employed as a registered pharmacist in a community pharmacy (wholesale or retail-medical store/chemists & druggists) or hospital pharmacy. It is the minimum qualification to practice the pharmacy profession, therefore, it is mandatory that all dispensing of prescription medicines has to be done under the supervision of a pharmacist only. There are several avenues also available in the pharmaceutical industry. Pharmacy Diploma Qualifications are eligible to take admission in B.Pharm 2nd year.

Seminars & Conclave Publications

- **Alluring Wings:** The first book of the series. It has been authored by Ms. Sharddha Bung, student of DBSGU along with Siddhartha Raj Mohan, SGI.
- **Fluttering Hues:** This second book by Manas Shukla, Sonam Yangchen Bhutia, Sharddha Bung and Siddharth Raj Mohan, provides a colourful insight into the butterfly diversity of the Mussoorie Wildlife Sanctuary.

Learning by Empowering

At DGU the management lays emphasis on passing on the responsibility and authority of administering the institute and activities in the hands of the students. Thus the students work as board members of various committees, write minutes register, make account statements and manage the campus & build their leadership capabilities. The students are encouraged to participate in wide ranging extra curricular activities.
