

ICAR AIEEA PG 2026 Agromony

- Agroforestry and Integrated Farming: majority of the questions came from these two topics
- Agrometeorology and Organic Farming: very few questions
- Irrigation: data-related questions featured
- Nutrients: covered with a fair number of questions
- Water Management: hardly any questions
- Soil & Tillage Implements: around 10 questions
- Weeds: 3-4 questions
- Institutes: around 5 questions
- Dryland Agriculture: 2-3 questions
- Crops: around 5 questions
- General Agriculture: around 20 questions
- Crop Physiology (CPHY): 3-5 questions

Overall, the paper was easier compared to previous years' papers.
