

ICAR AIEEA PG 2026 Physical Sciences

Soil Science

- Paper Level: On the tougher side overall
- Soil Fertility: around 10 questions
- Soil Physics: 17+ questions
- Soil Pedology: 15+ questions
- General Agriculture: 24+ questions
- Soil Meteorology: 14+ questions
- Agrometeorology: 3-4 questions
- Question Type: mostly Assertion-Reason (AR), True/False statements, and Multiple Statement Selection type questions; only 10-15 were straightforward one-liners
- Options: very close and tricky to eliminate between
- PYQs: not repeated at all — despite solving the last 5-6 years' papers multiple times, none of those questions showed up in exam
- Crop Production: some difficult questions appeared from this area, which hadn't been asked in previous years
