

ICAR AIEEA PG 2026 Veterinary Science

- Paper Level: Easy to moderate, with a good number of direct questions
- Animal Science: Moderate to difficult
- Recommended Resources: Review of Veterinary Science, Animal Refreshers
- Preparation Focus: Strong grip on core concepts along with regular mock test practice
- Advice for Candidates: No need to lose hope even if the attempt didn't go well- candidates are already qualified veterinarians, and this exam is just a step toward further specialization
- Next Steps: Wait for results before planning further, and balance professional work with focused prep time for future attempts
