PACE... AT A GLANCE

PACE Institute of Technology and Sciences, Ongole, was founded in the year 2008 under the Srinivasa Educational Society, with the vision and mission to develop it as an incubator of innovation and knowledge creation in the field of Science and Technology.

Since its inception, PACE has emerged as one of the most sought after destinations for young minds planning to shape their future in the ever-growing field of technology. With Twelve departments awarding degrees in Engineering, Diploma and Management, PACE is one of the most diversified institutions. Today, PACE, along with the other premium colleges, is recognized as an Institute of quality education and genuine placements. PACE has always been ranked amongst the top engineering institutes of the region by several agencies. The alumni of the institute occupy enviable positions in many Government, Private and Multinational organizations, thus providing a standing testimony to our success in fulfilling our objective. The College has the best faculty who adopt innovative training methodology to develop creative thinking in the students.

MULTIPLE DISCIPLINES MANIFOLD PROSPECTS

Progressive Affirmative Careers in Engineering

U. G. Programme

Programme	Intake
Computer Science Engineering (CSE)	180
Electronics & Communication Engineering (ECE)	180
Artificial Intelligence & Data Science (AI & DS)	180
Computer Science & Information Technology (CSIT)	120
Computer Science & Engineering (IOT & CS)	120

I ♥ PACE

Training & Placements

Training & Placement Cell is an integral part of our system. It follows a Student Centric approach to reflect the outlook of the corporate world. Training activities are well thought-out throughout the year in an effort to prepare students for campus selection.

The placement records of our students over the years have set standards in the history of placement wing. Every year 30+ companies visit our campus for hiring candidates. Performance of our alumni in various sectors like product based, service based and core is appreciated by our recruiting partners.

PACE Coders Club

Technology has revolutionized the world and holds the key to our future. We always believe in educating aspirants who are technically sound and motivated making them ready for the industry. As a part of the training system, we have set up a "Coders Club" for students to fine tune their coding skills. The club includes basic to advanced computer programming activities. This is an initiative to introduce coding concepts, and the power of computer programming, to as many students as possible. This initiative also aims in preparing students for placements by conducting practice tests. No matter what field you are in you will face a situation where you need to work on algorithms and need to know how to implement them in real life. And that's where Coders Club plays a vital role in developing the best coding practices among students. We conduct Codeathons every month and identify the top coders and reward them so as to encourage them to excel in programming skills.

Be Skillful & The masterpiece

PACE believes that, to thrive in the technology centered world today, it is important that the young minds marching towards their dreams possess robust knowledge in coding, programming, and technical know-how. Unless the student is given an opportunity to hands on, it is difficult to bag a super dream job. That's why at PACE a fully equipped laboratory caters the technology learning requirements. Therefore, every student of PACE possesses the advantage of updated skills and in-depth knowledge that is expected by the industry. With these, students of PACE are always receiving priority over others when it comes to choosing between multiple candidates applying for the same position.

SUCCESS COMES TO THOSE WHO WORK FOR IT

OUR RECRUITERS

“We Grow The Talents
They Harvest Them”

THINK PLACEMENTS
PACE

Global Certifications

The employers are looking for people with qualifications that are recognized globally. International certifications will help to gain an edge over the competition and make sure to get the right job. In order to make the students globally slandered, the T&P department caters certifications on emerging technologies such as AWS, Microsoft Azure and that would make the students to stand out from the crowd.

Preparing today's students to define tomorrow's world

Roopa Akkesh K

Dean - Training & Placements

From the Desk of TPO

I welcome you to one of the most decisive hubs in the life of an Engineering Aspirant - 'The Training and Placement Cell'. The T&P Cell is pertinently set up, not only to give a right opportunity, but also to guide each student to get into the right career. It has always been our earnest endeavor to consistently work towards enhancing career opportunities for our students.

The present batch of our young budding students of different courses is working hard to be a part of the large dynamic industry. The intensive technical training and the encouraging learning environment of our institute has made them proficient in the basic as well as competitive programming. The various value-added courses being imparted at the Institute have given an adequate exposure to our students. Apart from core technical skills, our students are competent in communication and soft skills too. We are confident that these young men and women would be an asset to your organization through their technical and managerial capabilities and their innate talent for innovation.

Our aim is to actively assist you in attracting and identifying the individuals best suited to your needs and to develop a successful recruitment relationship. So far our recruiters are pleased with the quality of our students, Infrastructure and the facilities provided to them and expressed happiness at the outcome of the drive and I assure this year hiring also would be the same in terms of quality hiring. I invite your esteemed organization on behalf of PACE for yet another year of productive recruitment.

EXPLORING THE WORLD OF OPPORTUNITIES

WE TRAIN OUR STUDENTS TO BE INDUSTRY READY

Every Student of PACE possesses an ambitious mind, they dream of becoming a successful individual in life with success shadowing their march along with their career path. At this stage, the Training and Placement Department of PACE thinks about learner's transition from college to career programs that takes over as the priorities for individuals. At the end it always aims at helping the student's inch closer to their professional dreams.

PACE T&P comprehends the individual and unique requirements associated with every branch of engineering and devise separate models of learning for each program. Special Training programs are designed and executed based on the skill gap analysis.

It is a Known fact that, having an educational degree, does not always help in getting a job commensurate. To ensure that lifelong employability through upskilling and reskilling the T&P department provides many skill development programs such as internships, self learning courses and mini projects. These upskilling programs make the students to hone their skills.

ESCALATING TOWARDS EXCELLENCE

Students' Testimonials

Anusha Chandana Mutyala
ECE

I am grateful to the Management and to our faculty who provided me with unwavering support and guidance throughout my academic journey. I would like to express my heartfelt gratitude to the Training & Placement cell for their invaluable guidance and support, which helped me secure a placement at IBI group in my third year itself and provided me with a solid foundation for my career.

Anil Adina
CSIT

I have a deep sense of gratitude for being selected through the campus placement programme. The overall process was meticulously planned and I received exceptional direction and assistance from the placement department.

Sowmya Somisetty
ECE

I got placed in ADP. I am really thankful to our college and placement cell, for supporting and providing us opportunities to learn interview skills, communication skills and guiding us in placements. The staff was supportive and informed us with enough notice regarding every placement drive. I am grateful to have such a good T&P department.

Krishna Gayathri Telikapalli
CSE

I am a final year student of Computer Science branch and currently placed in ThermoFisher, I am very thankful to the Training & Placement department that helped me achieve this by guiding me at every stage. My experience with the placement procedure was really great as I got to learn a lot. The placement cell is very well versed about each step of campus recruitment process.

Gopikrishna Kumhari
EEE

My sincere appreciation & gratitude to the Training & Placement Department and all faculty members of PACE for their efforts in imparting quality technical and aptitude training. I am very grateful to them for effectively and sincerely helping me to grab first ever opportunity that came into my life.

Maram Kalyan Kumar
Mechanical Engineering

I am Maram Kalyan Kumar from Mechanical Engineering Branch and I am placed at TCS(Digital), the product development job with 7 LPA. I am immensely grateful to Training & Placement Department for their meticulous training that transformed a core student to a software developer. T&P is indeed a perfect place to unleash the coding potential of the students.
