Scholarship Selection Committee
Global Excellence Scholarship, University of Example

Dear Scholarship Selection Committee,

I am writing to express my intent to apply for the Global Excellence Scholarship for the MS in Computer Science at the University of Example, commencing Fall 2026. This scholarship's focus on supporting women in technology aligns closely with my academic path and my goal of advancing accessible artificial intelligence.

I completed my Bachelor of Technology in Computer Engineering at Pune University with a CGPA of 9.1 out of 10, ranking in the top 3% of my cohort. During my degree I led a four-member team building a speech-to-text tool for regional Indian languages, which we published at a national student conference. I also interned for six months at a healthcare analytics firm, where I built machine learning models that improved diagnostic accuracy by 14%.

My long-term goal is to develop AI systems that serve underrepresented communities, and the University of Example's research strength in natural language processing is the ideal place to pursue this. The Global Excellence Scholarship would allow me to focus fully on research rather than part-time work, and to contribute to the university's Women in Computing initiative as a mentor.

As a first-generation postgraduate student, this award would make an international education financially possible for my family. In return, I will bring strong technical skills, a record of collaboration, and a commitment to giving back to the university community.

Thank you for considering my application. I am confident that my background and ambitions make me a strong fit for this scholarship, and I look forward to contributing to your academic community.

Yours sincerely,
Priya Sharma
