

Computer Science LOR - Professional Sample

From a Manager | Collegedunia Study Abroad

Rahul Verma • Engineering Manager • TechNova Solutions • rahul.verma@technova.com

12 August 2026

To the Admissions Committee,

I am pleased to recommend Mr. Arjun Nair for the MS in Computer Science at your university. As his engineering manager at TechNova Solutions for two years, I have seen him grow into one of the strongest software engineers on my team of 15.

Arjun works primarily in backend development with Java, Python and cloud services. He has strong command of system design and databases, and consistently delivers reliable, scalable code. His technical judgement is trusted well beyond his experience level.

His standout contribution was redesigning our payments microservice, which cut response time by 35% and reduced failures during peak load. Arjun led the design, coordinated with three teams, and shipped the solution ahead of schedule, showing both technical depth and leadership.

Arjun is also an excellent communicator who documents his work clearly and mentors junior engineers. He combines professional maturity with a genuine drive to deepen his computer science foundations through graduate study.

I give Arjun my strongest recommendation and have no doubt he will thrive in your program. I am happy to provide further details if required.

Sincerely,

Rahul Verma

Engineering Manager, TechNova Solutions
