- (vi) In each of Questions 12 and 13, answer one alternative in 120–150 words.

Section A — Reading (20 Marks)

1. (1) When we think of the game of cricket, we come to the conclusion that it is primarily a game that depends on outstanding physical activities, good hand-eye co-ordination, speed, skill and strength. It provides entertainment and generates strong feelings of excitement. A good match of cricket or of any other game neither adds to the existing stock of human knowledge nor reveals any secret of existence. It does not carry any deep meaning but most people, particularly the lover of sports attach deep emotions and numerous meanings to it. Games are thought of as a metaphor for life. They are supposed to teach many lessons. In fact, more is said and written about a cricket match than about scientific findings or great philosophy.

(2) This is because games, like a morality play, in which settings and rules are made by us, can easily make people test their fair and foul conduct, principles of reward and punishment, and emotions of joy and disappointment. They can make us experience the thrill of war without exposing us to its dangers. A man watching a cricket match on T.V. and munching popcorn is like a surrogate warrior. In fact, games provide us with a safe outlet for our aggressiveness. If games become aggressive, they lose the very purpose of providing entertainment and purging us of our aggressiveness. They can calm our impatience without creating any conflict.

(3) Commentators, journalists, politicians and analysts can do a great favour to the competing teams by keeping the excitement within limits. The teams should play without being dominated by feelings of national honour and shame. Excellent performance of the players of both teams should be enjoyed and appreciated. Winning or losing in a game should not be taken seriously. A game is fun if it is played with true spirit of sportsmanship.

Based on your understanding of the passage, answer the questions given below:

1(i). Complete the sentence by choosing an appropriate option:

Most people conclude that cricket is primarily a game because _____.

- | | |
|-----------------------------------|---|
| (A) it is played as a match | (B) it requires two teams |
| (C) it includes physical activity | (D) it depends only on skill and strength |

1(ii). Comment on the writer's reference that cricket does not reveal any secret of existence.

1(iii). List two responses which watching a game of cricket gives rise to.

1(iv). Select the option that conveys the opposite of 'destroy' from words used in the passage.

- | | |
|--------------|----------------|
| (A) reveals | (B) experience |
| (C) generate | (D) purging |

1(v). The writer would not agree with the given statements based on paragraph 2, EXCEPT:

- | | |
|---|---|
| (A) Rules of any game are made by people. | (B) Watching a cricket match makes the viewer believe that he is fighting a battle. |
| (C) It is necessary for a game to be aggressive in order to build excitement. | (D) A game can test people's sense of fair judgement. |

1(vi). With reference to the passage, a spectator is compared to a 'surrogate warrior'. Choose the option that best describes this phrase:

- | | |
|--|--|
| (A) a spectator who is paid to watch. | (B) a spectator who is in pain while watching the match. |
| (C) a spectator who enjoys the match as an armchair soldier. | (D) a spectator who makes judgement about reward and punishment. |

1(vii). Why does the writer compare games to a morality play?

1(viii). Complete the given sentence with an appropriate inference with respect to the following:

The writer says that games can calm our impatience without creating any conflict by _____.

1(ix). The writer advises the players that games should not become aggressive because _____.

1(x). Select the most suitable title for the above passage.

- (A) Excellent Performance by Cricketers (B) The Benefits of Playing Cricket
(C) Cricket - The King of Games (D) The True Spirit of Playing Games

2. Read the following report and answer the questions by choosing the correct/most appropriate option:

(1) How bird hits happen, why they are a concern?

New Delhi June 20. At least two bird strike incidents happened on Sunday. Both aircrafts returned to their airports of origin and were grounded for maintenance. An ABC aircraft, which took off from Guwahati towards Delhi, suffered damage to its left engine following a bird hit at 1600 feet. The pilots returned to Guwahati. The other strike happened on another flight from Patna to Delhi. The pilots of the aircraft suspected a bird strike during the take-off roll but continued to climb. Following the take off rotation, they were informed by the cabin crew of sparks emanating from the left engine. Subsequently, the pilots were also informed by air traffic control of smoke coming out of one of the engines. The pilots declared an emergency and returned to Patna.

(2) Why are bird strikes a concern?

2. (continued)

Bird strikes are among the most common threats to aircraft safety, and they typically occur during take-off or landing. Dozens of bird-strikes happen each day but some can be more dangerous than others. Typically, when birds collide with an aircraft's airframe, it is unlikely to cause significant problems for the pilots flying. But there are instances when the aircraft engine ingests the birds. This can lead to a loss of thrust for the engine and cause maneuverability problems for the crew. In these cases, where a jet engine ingests a bird, procedures would generally call for pilots to land the plane at the closest airport. While most airframe bird strikes are not considered critical to air safety, if a collision cracks a window or a wind screen, pilots will look to land as early as possible.

(3) How critical are bird strikes to air safety?

Smaller planes would generally be more susceptible to the dangers of bird strikes than larger ones. However, given that bird strikes mostly happen during take-off and landing, these incidents could distract the pilots during what are highly critical phases of flights that demand the complete attention of the crew.

(4) What causes bird-strikes?

2. (continued)

The presence of birds around an aircraft increases the chances of a bird strike. In the monsoon, as water puddles emerge on open grounds attracting insects to breed, the presence of birds increases. In some cases, bird hits also happen at higher altitudes when a plane is cruising. These are more dangerous than the low-altitude hits, given that they can cause rapid depressurization of cabins. Other reasons for bird activity around the air field could be presence of landfills or waste disposal sites that can attract a large number of birds.

Answer the questions based on the above report:

2(i). Does the following statement agree with the information given in paragraph 1?

When an airplane is hit by a bird or is suspected to have been hit, the passengers must be asked to get down at once.

Select from the following:

True: If the statement agrees with the information.

False: If the statement contradicts the information.

Not Given: If there is no information on this.

- (A) I (True) (B) II (False)
(C) III (Not Given)

2(ii). Select the option that displays the most likely reason for Bird hits.

- (A) when the aircraft is overloaded (B) at the time of landing or taking off
(C) when the crew become negligent (D) when the passengers become panicky

2(iii). Complete the sentence appropriately with one word.

Smaller planes are generally more _____ than the larger ones.

2(iv). Complete the sentence by selecting the most appropriate option:

When the window or the windscreen of the air plane is cracked due to a bird hit _____.

- (A) the crew must rush to the cockpit. (B) the pilot must land at the earliest airport.
(C) the pilot must inform the maintenance engineer. (D) the pilot must get instructions from the aviation wing what should do in emergency.

2(v). Based on the reading of the text, state a point to further the statement.

Dozens of bird hits take place every day _____.

- (A) but only a few are dangerous. (B) all of them are fatal.
(C) but after every bird hit it is imperative to land the aircraft. (D) the pilot should ignore them.

2(vi). Complete the sentence based on the following statement:

Complete attention of the crew is demanded during take off and landing. We can say this because _____.

2(vii). Complete the sentence appropriately with one/two words.

In cases where the aircraft engine infests the bird, it leads to the loss of thrust and causes problems in _____.

2(viii). Which are the areas more prone to bird hits?

2(ix). Based on the reading of the text, state a point to challenge the given statement:

The area around air fields should be clear of any waste disposal sites.

2(x). Look at the graph. It shows that between 2016 and 2021, whereas air flights have come down, the bird-hits have gone up. This implies that the incidence of bird hits has _____.

- (A) decreased (B) increased
(C) remained constant (D) been alarming

2(x)-VI. [For Visually Impaired Candidates, in lieu of Q.2(x)]

In order to save the lives of the passengers the pilots should _____.

- (A) be instructed not to cruise at high altitudes. (B) should not rotate engines.
(C) not permit the passengers to open windows. (D) vigilance should be beefed up.
