Section A — Reading (22 Marks)

1. (1) In the heart of a bustling city, amidst the cacophony of traffic and the incessant buzz of urban life, there lies a sanctuary of tranquility, a sprawling public park that offers a respite from the daily grind. This park, with its verdant lawns and serene water features, attracts visitors from all walks of life, seeking solace and rejuvenation.

(2) A public park is an area of open space owned and maintained by the local government, providing recreational opportunities for citizens. Public parks are places of leisure integrated into the community and are generally considered safe places. They provide essential environmental, aesthetic, and recreational benefits to our cities.

(3) As the sun rises, joggers and fitness enthusiasts can be seen navigating the winding paths, their faces set with determination. Meanwhile, yoga practitioners find their own quiet corners, their movements graceful and meditative. The air is filled with the chirping of birds and the rustling of leaves, creating a natural symphony that soothes the soul.

(4) By midday, the park transforms into a lively gathering spot. Families spread out picnic blankets, sharing meals and laughter, while children chase each other across the grass, their joyous shouts echoing through the trees. Elderly couples sit on benches, reminiscing about days gone by as they watch the world go by.

(5) As dusk approaches, the park takes on a magical quality. The setting sun casts a golden hue over the landscape, and the water features glisten in the fading light. Street performers and musicians add to the enchantment, drawing crowds with their captivating acts. The park, now aglow with lanterns, becomes a haven for stargazers and dreamers alike.

(6) In this urban oasis, people find a connection with nature and one another, a reminder that amidst the chaos of modern life, moments of peace and tranquility are still within reach. Especially in cities, parks encourage native flora and fauna to thrive.

Answer the following questions, based on the above passage:

1(i). Why does the writer refer to the park as a 'sanctuary of tranquility' in paragraph (1)?

1(ii). Why is it important for governments to set up public parks?

1(iii). According to the passage, what activities can be observed in the park during the early morning hours?

1(iv). Describe the transformation of the park by midday.

1(v). Complete the following suitably.

The park at dusk is described as taking on a magical quality because of _____.

- | | |
|---|---|
| (A) the setting sun
casting a golden hue
and water features
glistening | (B) the bustling
activities of joggers
and fitness
enthusiasts |
| (C) the lively gathering
of families and
children playing | (D) the quiet solitude
and meditation of
yoga practitioners |

1(vi). Provide one textual evidence with reference to paragraph (4) to prove the following:
Elderly couples feel a sense of nostalgia.

1(vii). In the line "The park, now aglow with lanterns, becomes a haven for stargazers and dreamers alike," what does the phrase 'haven for stargazers and dreamers' refer to? (Paragraph 5)

1(viii). Complete the analogy with one word from paragraph (6).

urban life : chaos :: park : _____

- | | |
|-----------------|--------------|
| (A) connection | (B) reminder |
| (C) tranquility | (D) oasis |

1(ix). Why is it fair to say that the statement "In this urban oasis, people find a connection with nature and one another" from paragraph (6) is significant?

- (A) It highlights the park's role in promoting physical activities. (B) It emphasizes the park's importance as a social and natural retreat.
- (C) It mocks the idea of nature within a bustling city. (D) It underplays the park's significance in modern life.

1(x). Assess the potential benefits of an urban park.

2. (1) Introduction: As the world grapples with climate change, renewable energy has emerged as a crucial solution. This case study aims to analyze the increasing use of renewable energy in India, its adoption across different sectors, and the implications for society and the environment.

(2) Methodology: A survey was conducted among households, businesses, and industries across various regions in India. Participants were asked about their primary source of energy (traditional fossil fuels or renewable energy) and the reasons for their preferences. The data was then analyzed to identify trends and patterns among different demographics and sectors.

(3) Survey Examination: The survey encompassed a comprehensive examination of energy consumption habits, not only focusing on the preferred sources of energy but also delving into the underlying motivations and influences guiding these choices. Beyond mere preference, participants were encouraged to articulate the reasons behind their selections, providing invaluable insights into the multifaceted nature of energy consumption.

(4) Results: The survey results revealed interesting insights into the energy preferences among different groups:

2. (continued)

S. No.	Demographic Preferences	%	Preferred Source	Reasons for Preference
1.	Households	62%	Renewable	Environmental concerns, cost savings, government incentives
2.	Small Businesses	55%	Renewable	Cost efficiency, public image, sustainability
3.	Large Industries	48%	Renewable	Long-term savings, corporate responsibility compliance
4.	Rural Areas	71%	Renewable	Accessibility, reliability, local employment opportunities
5.	Urban Areas	58%	Renewable	Environmental awareness, incentives, modern infrastructure

2. (continued)

(5) Implications for Interventions: By discerning the diverse preferences among different demographics, policymakers, and energy providers, one can tailor interventions to address specific needs. For instance, increasing government incentives and subsidies for renewable energy can encourage more households and businesses to adopt sustainable practices. Concurrently, efforts to improve the infrastructure for renewable energy can enhance its reliability and accessibility. By harnessing the insights gleaned from this study, stakeholders can collaboratively work towards building a cleaner and more sustainable future for generations to come.

Answer the following questions, based on the given passage.

2(i). Complete the following suitably:

In the introduction, the researcher links climate change with the rise of renewable energy by highlighting _____.

2(ii). What would the following be classified as?

To examine energy preferences across various demographics in detail, and assess their implications.

Select the appropriate response:

- (A) Primary purpose (B) Method of analysis
(C) Secondary objective (D) Research outcome

2(iii). Mention the two steps adopted in the survey methodology.

2(iv). Paragraph (3) includes the words 'motivations' and 'influences'. Classify the following sentences as influence or motivation.

Sentence 1: Government incentives lead households to prefer renewable energy over traditional fossil fuels.

Sentence 2: The desire for long-term savings makes large industries choose renewable energy.

2(v). Read the following text:

Rajan, a rural household head, prefers using solar panels for energy due to their reliability and the local employment opportunities they provide. His neighbour, Rama, a small business owner, values renewable energy for its cost efficiency and sustainability. Meanwhile Suresh, who runs a large industry, opts for renewable energy due to corporate responsibility and compliance with regulations.

Select the option that identifies the correct demographic they belong to.

- | | |
|--|--|
| (A) Rajan - household worker; Rama - small business owner; Suresh - large industry owner | (B) Rajan - rural employee; Rama - urban worker; Suresh - household head |
| (C) Rajan - rural household head; Rama - small business owner; Suresh - large industry owner | (D) Rajan - urban worker; Rama - large industry owner; Suresh - rural worker |

2(vi). Although both rural and urban areas prefer renewable energy, why is the preference percentage higher among rural areas?

2(vii). Analyse how targeted interventions based on diverse energy preferences of different demographics can lead to improved environmental outcomes. (Paragraph 5)

2(viii). What is the ultimate goal for stakeholders, based on the insights from the study?

- | | |
|--|---|
| (A) increase profitability through enhanced renewable infrastructure | (B) build a sustainable future |
| (C) reduce the cost of energy | (D) expand the range of renewable energy products available |

9. Read the following extract and answer the questions.

The make-up room had the look of a hair-cutting salon with lights at all angles around half a dozen large mirrors. They were all incandescent lights, so you can imagine the fiery misery of those subjected to make-up. The make-up department was first headed by a Bengali who became too big for a studio and left. He was succeeded by a Maharashtrian who was assisted by a Dharwar Kannadiga, an Andhra, a Madras Indian Christian, an Anglo-Burmese and the usual local Tamils. All this shows that there was a great deal of national integration long before A.I.R. and Doordarshan began broadcasting programmes on national integration. This gang of nationally integrated make-up men could turn any decent-looking person into a hideous crimson hued monster with the help of truck-loads of pancake and a number of other locally made potions and lotions.

(Poets and Pancakes)

9(i). Why does the author compare the make-up room to a salon?

9(ii). Select the correct option from those given in brackets to fill in the blank.
