As the Buddha lay dying, Ananda asked him :

“What are we to do Lord, with the remains of the Tathagata (another name for the Buddha) ?”

The Buddha replied : “Hinder not yourselves Ananda by honouring the remains of the Tathagata. Be zealous, be intent on your own good.” But when pressed further, the Buddha said :

“At the four crossroads they should erect a thupa (Pali for stupa) to the Tathagata. And whosoever shall there place garlands or perfume ... or make a salutation there, or become in its presence calm of heart, that shall long be to them for a profit and joy.”

32. Read the given source carefully and answer the questions that follow :

Peasants on the move

This was a feature of agrarian society which struck a keen observer like Babur, the first Mughal emperor; forcefully enough for him to write about it in the Babur Nama, his memoirs :

In Hindustan hamlets and villages, towns indeed, are depopulated and set up in a moment! If the people of a large town, one inhabited for years even, flee from it, they do it in such a way that not a sign or trace of them remains in a day and a half. On the other hand, if they fix their eyes on a place to settle, they need not dig water courses because their crops are all rain-grown, and as the population of Hindustan is unlimited it swarms in. They make a tank or a well; they need not build houses or set up walls ... khas-grass abounds, wood is unlimited, huts are made, and straightaway there is a village or a town!

32.1. Why was the Indian agrarian society seen as unique by Babur ?

32.2. How did Babur describe the setting up of new settlements ?

32.3. How did rural folk build their dwellings ?

33. Read the given source carefully and answer the questions that follow :

Charkha Mahatma Gandhi was profoundly critical of the modern age in which machines enslaved humans and displaced labour. He saw the charkha as a symbol of a human society that would not glorify machines and technology. The spinning wheel, moreover, could provide the poor with supplementary income and make them self-reliant. What I object to, is the craze for machinery as such. The craze is for what they call labour-saving machinery. Men go on 'saving labour', till thousands are without work and thrown on the open streets to die of starvation. I want to save time and labour, not for a fraction of mankind, but for all, I want the concentration of wealth, not in the hands of few, but in the hands of all.

Young India, 13 November, 1924

Khaddar does not seek to destroy all machinery but it does regulate its use and check its weedy growth. It uses machinery for the service of the poorest in their own cottages. The wheel is itself an exquisite piece of machinery.

Young India, 17 March, 1927
